

Public Affairs Careers week

From October 25 to 29, Sciences Po Carrières, the School of Public Affairs and the School of International Affairs at Sciences Po, are offering students the opportunity to discover the variety of professions and sectors in which public affairs or institutional relations professionals work.

Whether in a company, local government, parliamentary office, ministry, consulting firm or specialized communications agency, NGO or professional federation, what are the different jobs and missions that our graduates can take on after Sciences Po?

For one week, all students will have the opportunity to learn more about these professions through roundtables, presentations, meetings, and to be inspired by the careers of graduates.
